SUMMARY

”Computer Science student with hands-on experience in AI, web development, and software engineering. Proficient in Python, C++ with expertise in data structures, algorithms, and full-stack development. Seeking for a software engineering internship to apply technical skills in real-world applications?”

WORK EXPERIENCE

Summer Training – 3D Printing and Robotics

July 2025 – Aug 2025

Completed a 4-week internship focusing on 3D Printing, Robotics, and Drone technologies under Industry 4.0 applications. Designed and 3D printed drone components (frames, propeller guards, payload mounts) using CAD tools and advanced FDM/SLA/DLP printers. Integrated camera sensors with microcontrollers for real-time video capture, object detection, and environmental perception.

PROJECTS

Ellyse - Your Virtual Ace

Sept 2024 - Nov 2024

Designed and developed a modular voice assistant with 15+ features including voice commands, weather API integration, WhatsApp automation, file system navigation, and real-time speech recognition. Implemented dynamic greeting system, mood detection logic, and contextual interaction handling.

Lumina AI

Aug 2025 - Present

Designed and developed Lumina AI, a cross-platform desktop app for intelligent eye health monitoring, leveraging computer vision (OpenCV, dlib) for real-time blink detection. Implemented a Python-based CV engine packaged with PyInstaller for real-time facial landmark recognition, blink detection, and adaptive thresholding.

EDUCATION

2022 - 2026	Bachelor's Degree at GGSIPU	(GPA: 7.2/10.0)
2022	Class 12th BSEB	(64/100)
2019	Class 10th CBSE	(62/100)

PUBLICATIONS

Ayush Kumar (2025). “ AI-based Voice Assistant”. In : International Journal for Research in Applied Science and Engineering Technology (IJRASET). Published Research Paper.

SKILLS

Programming Languages	Python, C, C++
Web Technologies	HTML, CSS, JavaScript
Frameworks/Tools	Electron, OpenCV
Other Skills	Git, GitHub, Problem Solving
